Project Name and Description: Downtown Parking Lot; East

A parking lot is needed to serve the east side of downtown. Parking space for downtown patrons is in short supply. A new parking garage, built a few years ago on the west side of downtown, has eased the problem in that area. A parking lot on the east side of downtown would help provide the parking need by many businesses and eating establishments in the area.

The parking lot will be located at 1621 Warren Avenue. The City has entered into a contract to purchase the property and a closing is scheduled for December 17th. The contract includes a contingency for grant approval by the State Loan & Investment Board for funding to purchase this parcel. If awarded, the Consensus List Grant funding will pay for the property, the demolition of structures on the land and the construction of the new parking lot.

Applicants submitting multiple applications must establish priority ranking:
